16. (Confidential - PLC) Jim Oliver, International Affairs Division OMB called and asked that we notify him if we become aware of any congressional action on the legislation proposed by the President to limit the cost of living adjustments of Government annuities.

17. (Confidential - PLC) Called Larry Segal, in the office of Representative George H. Mahon (D., Texas), in follow up from his earlier call of yesterday and informed him the refugees from Vietnam will be screened by CIA and other agencies prior to their entry into the United States. This screening should weed out any undesirables whose questionable activities were made known to American authorities.

18. (Confidential - PLC) Called Mike Krepon, Administrative Assistant to Representative Floyd V. Hicks (D., Wash.), to clarify whether the Representative still wanted the follow up briefing on chemical warfare in addition to the one given to him several months ago. I explained to Krepon that I had not heard from him and wanted to be sure that the "ball was not in our court." He made it clear to me that they have not yet decided whether they want the briefing and will call back.

19. (Unclassified - FMC) Received another call from Lisa in the office of Representative Jack Brooks (D., Texas), who said she had tried the DOCEX Program at the Library of Congress in order to acquire a copy of the publication, "Potential Implications of Trends in World Population, Food Production and Climate" but was unable to get any help from them. I told her I would check with [redacted] of our office and get back to her.
